

Volunteers In Mission

What can be more important and more meaningful than being involved in a ministry that seeks to share the love of Christ in ways that make a Christian difference in our world?

Ministry Safe/background check

The Oklahoma United Methodist Conference ministries have transitioned to using Ministry Safe background checks. This improved platform allows for online training and comprehensive background checks. When completing your background check, please note that the Conference requires that every volunteer has **at least two references**: a **pastoral and a personal** and these **cannot be family relatives**.

Sexual Awareness Training

Sexual Abuse Awareness Training is key in equipping staff members and volunteers to better understand the risk of child sexual abuse. While the OKUMC has required background checks and safety training related to our Safe Sanctuary policy, we have never provided and actual training program for volunteers to use. The sexual awareness **training is a video** that lasts about an hour (divided in sections, you can save and close as you go) after watching the video there will be a **quiz** that needs to be taken in order to be **certified**.

Jesus said, “Whoever welcomes [a] child.... Welcomes me” (Mathew 18:5).
